

# Project Deliverable Description

---

**Deliverable Title:** UML Sequence & BPMN Diagrams Submission

**Deadline:** 18 November 2025, 11:59 PM

## Description

Each team is required to submit a set of **UML diagrams** representing the **core functionalities** defined in your previous team deliverable. These diagrams must clearly illustrate the main workflows and interactions of your system.

Each **team member** must contribute:

- **1 Sequence Diagram**
- **1 BPMN Diagram**

For example, a team of **three members** must deliver a total of **3 Sequence Diagrams** and **3 BPMN Diagrams**.

**Important:** Teams must remain the same as in the previous deliverable.

## Submission Guidelines

Your submission must include a **single PDF file** containing the following sections:

1. **Project Title**
2. **Short Description** of the system (2–3 lines)
3. **All UML Diagrams (Sequence & BPMN)**

Each diagram must include:

- A clear **title**
- A **brief description** of the diagram's purpose

Only the **team leader** should upload the deliverable on behalf of the team.

## Submission Link

Submit your deliverable using the following link: <https://forms.cloud.microsoft/r/ZWWigBRRbp>

### Important Notes for Submission Form

- Use the provided submission form and ensure the **Project Title in the form matches your uploaded project's team name**. Check your project title from the uploaded CMS document titled "*Project Titles by (Team Leader)*".
- The team must be identical to the one used in the previous deliverable.
- If any team isn't mentioned in "*Project Titles by (Team Leader)*" document **contact your TA via email early**.
- The submission form must be completed and submitted using your **official GIU email address**.
